

## **Task Force: Bush budget 'perversion of American values'**

February 5, 2007

President Bush submitted his budget plan to Congress today.

Statement by Matt Foreman, Executive Director

### **National Gay and Lesbian Task Force**

"The president's proposed budget is a perversion of American values and priorities. This budget hurts all Americans, including lesbian, gay, bisexual and transgender Americans. Billions more will be squandered on his failed and senseless war in Iraq while critical American priorities are on the chopping block. In all, it is an immoral attempt to finance the war on the backs of America's most vulnerable people. We look forward to working with Congress to restore some of the drastic cuts that have been made in the past few years in social service programs and support a budget that reflects the true needs of America."
